## Transportation and Infrastructure “Plangineer”

### mcfa Transportation and Infrastructure “Plangineer” Job Opportunity

**Definition: mcfa plangineer [ plan'-gin-ear ]** – noun: *a highly capable and motivated person who engages in technical work that is grounded in the professions of planning and civil engineering for the express purposes of creating and accelerating entrepreneurial engineering solutions for transportation and infrastructure programs for public agencies and private clients.*

#### What the opportunity offers you:

- **Show your Expertise** - Be a key technical project contributor for planning and engineering studies for a wide variety of transportation and infrastructure agencies across the Mid-Atlantic
- **Build Capabilities** – Work with senior and peer **mcfa** resources to build your personal capabilities and experiences to deliver infrastructure planning and design solutions for transportation agencies
- **Contribute to a Team** – Add your skills and capabilities to a team of diverse multi-discipline professionals to develop creative solutions for transportation engineering projects
- **Help Build a Practice** – Ground floor opportunity to work with Client/Practice Leaders to build an industry-leading infrastructure planning and engineering team or become key staff in an on-site program management office

#### What we need from you:

- **Gets it, Wants it and Capacity to Execute (GWC)** - Alignment with the mcfa Core Values of **White Glove Customer Service, Intentional Creativity and Curiosity, Extreme Ownership, Teamwork, and Fun**
- **Experience and Achievements** – 3-8 years of demonstrated experience in horizontal infrastructure assessment, planning, preliminary engineering studies, design, and construction projects for transportation and infrastructure agencies. Experience with PANYNJ, NJTA, NJDOT, MDOT, VDOT, or PENNDOT projects preferred.
- **Industry Credentials** – EIT credential required and experience and education eligibility to obtain Professional Engineer credentials within 6 months of hire
- **Technical Expertise** – Strong skills in problem solving, critical thinking, engineering design studies, geometric evaluations, maintenance of traffic plans, and developing technical reports and presentations and demonstrated mastery with Bentley MicroStation platforms required
- **Travel** - Ability to travel periodically to various transportation agencies and project sites across the Mid-Atlantic
- **Work Authorization:** Authorization to work in the United States.
