

JOB OPPORTUNITY

Trainee Construction Inspector

MCFA Job Opportunity

Description: MCFA has an immediate opening for highly motivated trainee Inspectors, ready to jump in and take on projects in construction. Ideal candidates should have the following:

- High School Diploma with a higher education background in engineering.
- Ability to travel to various field project sites.
- Ability to monitor construction operations.
- Knowledge in collecting samples of materials as needed.
- Ability to utilize field testing equipment to determine compliance with project plans, specifications, and industry standards.
- Ability to review approved plans, specifications, and submittals for inspection requirements.
- Knowledge of compliance with inspection requirements in accordance with the applicable code, approved plans, and specifications.
- Ability to process daily field reports and inspection reports and follow procedures for notification of discrepancies.
- Ability to communicate with project managers, colleagues, and contractors as required.
- Testing procedures and inspections may include conducting field testing and sampling of concrete in accordance with ASTM standard procedures, conducting in-place density testing of soils and/or asphalt using testing equipment assisting with conducting coring operations with concrete and/or asphalt. Inspections for more experienced technicians may also include performing structural masonry inspections, soils sampling and inspection, and steel inspection.

What the Opportunity Offers You...

- **Grow your Expertise** – Expand your knowledge and expertise in the civil engineering career and develop standard practice for the firm to follow.
- **Bring Value to Agency Infrastructure Champions** – Leverage MCFA's resources with your background and experience to integrate and streamline activities, achieve goals through set strategies, and positively impact productivity.
- **Build a Team** – Be part of the growing team in support of MCFA Client's Program.

What We Need from You...

- **Gets it, Wants it, and Capacity to Execute (GWC)** – Alignment with the MCFA Core Values of **White Glove Customer Service**, **Intentional Creativity**, **Extreme Ownership**, **Teamwork**, and **Fun**.
- **Industry Credentials** – EIT Certification preferred. Complete OSHA 10-Hour and NHI-Plan Reading course.
- **Position Requirements** – Proficient working with MicroStation PowerDraft to develop MPT Plans. Attain NICET I Certification within six months of their assignment to the project to remain on the project. Accomplish NICET II Certification within 24 months of their assignment to the project to remain on the project.
- **Technical Education** – H.S. Diploma, Associates or B.S. Degree in Civil Engineering.
- **Travel** – Required to visit job sites.
- **Work Authorization** – U.S. Citizenship; Authorized to work in the United States.
