**FOR OVER A DECADE**, public and private-sector clients worldwide have selected MCFA as Energy and Infrastructure consultants on their most demanding initiatives, with a focus on the financial and cumulative impacts of proposed programs, policies, and projects.

## Strategy + Planning

Large scale investment by both public and private sector requires brainstorming, planning, analysis and rigor to ensure all options are considered when making important investment decisions. MCFA helps organizations with the upfront project development work that allows an idea to take life in the most efficient and cost effective way possible. MCFA works with our clients to help them identify the risks, the stakeholders and the gaps and then manage them every step of the way. We help navigate and mitigate the political, financial and technical hurdles that can delay or derail a project.

## Project + Construction Management

Ideas are many and resources to execute are short. MCFA can help. Sustainability, green initiatives, energy savings, the list goes on. Balancing time, schedule, quality and safety have never been harder for both public and private sector owners, developers and facility managers. MCFA partners with our clients to get projects moving and keep them on track.

MCFA personnel are coveted assets and strategic planning partners for agencies and missions that wish to have their key facilities and infrastructure projects executed. We bring a sense of urgency, passion and problem-solving expertise to help develop and take your key projects from vision to reality. Additionally, MCFA offers our clients broad support of ancillary matters, including access to in-house legal counsel for land use policy, land transactions and real estate advisory and transactional support services.
