Military and Federal Facilities “Planchitect”

mcfa Military and Federal Facilities “Planchitect” Job Opportunity

Definition: mcfa planchitect [plan'-ki-tekt] – noun: *a highly capable and motivated person who engages in technical work that is grounded in the professions of planning, architecture and landscape architecture for the express purposes of creating and accelerating entrepreneurial project development solutions for facilities and infrastructure programs in support of agency mission requirements.*

What the opportunity offers you:

- **Show your Expertise** - Be a key technical contributor to planning and project development studies for a wide variety of military and other federal agency facilities, installations and missions across the Mid-Atlantic and CONUS
- **Build Capabilities** – Work with senior and peer **mcfa** resources to build your personal capabilities and experiences to solve mission critical infrastructure deficiencies and project execution challenges
- **Contribute to a Team** – Add your skills and capabilities to a team of diverse multi-discipline professionals to develop creative solutions to mission and facility alignment deficiencies
- **Help Build a Practice** – Ground floor opportunity to work with Client/Practice Leaders to build an industry-leading facilities planning team or become key staff in an on-site program management office

What we need from you:

- **Gets it, Wants it and Capacity to Execute (GWC)** - Alignment with the mcfa Core Values of **White Glove Customer Service, Intentional Creativity and Curiosity, Extreme Ownership, Teamwork, and Fun**
- **Experience and Achievements** – 3-8 years of demonstrated technical experience in the development of master plans and project development programs for major military and federal facilities, missions, installations, campuses, or enterprises preparing Facility Condition Assessment reports, Project Requirements Analysis reports, Area Development Plans, and/or Project Development Playbooks
- **Industry Credentials** – Experience and education eligibility to obtain AICP Certified Planner, Registered Architect, Professional Engineer, or Registered Landscape Architect credentials within 6 months of hire
- **Technical Expertise** – Strong skills in the development of course of action alternatives, evaluation of alternatives, and developing technical reports and presentations and demonstrated mastery with AutoCAD, Sketchup, Photoshop, and/or ArcGIS platforms required
- **Travel** - Ability to travel periodically to various military and federal installations across the U.S.
- **Work Authorization:** US Citizenship, the ability to receive US Government contractor credentials and authorization to work at Department of Defense military installations and other federal agency facilities
