

mcfa Job Opportunity

Transportation and Infrastructure Senior “Plangineer”

mcfa Military and Federal Facilities Senior “Plangineer” Job Opportunity

Definition: mcfa plangineer [plan’-gin-ear] – noun: *a highly capable and motivated person who engages in technical work that is grounded in the professions of planning and civil engineering for the express purposes of creating and accelerating entrepreneurial engineering solutions for transportation and infrastructure programs for public agencies and private clients.*

What the opportunity offers you:

- **Show your Expertise** - Be the senior technical project lead and primary client relationship manager for planning and engineering studies for a wide variety of transportation and infrastructure agencies across the Mid-Atlantic
- **Bring Value to Agency Infrastructure Champions** – Leverage **mcfa** resources and your personal background and experiences to solve mission critical infrastructure deficiencies and project execution challenges
- **Build a Team** – Develop and harness the capabilities of team of diverse multi-discipline professionals to develop creative solutions for transportation engineering projects
- **Build a Practice** - Grow into a robust Client/Practice Leader roll and build an industry-leading infrastructure planning and engineering team or an on-site program management office

What we need from you:

- **Gets it, Wants it and Capacity to Execute (GWC)** - Alignment with the mcfa Core Values of **White Glove Customer Service, Intentional Creativity and Curiosity, Extreme Ownership, Teamwork, and Fun**
- **Experience and Achievements** – 12+ years of demonstrated technical leadership in horizontal infrastructure assessment, planning, preliminary engineering studies, design, and construction projects for transportation and infrastructure agencies. Experience with PANYNJ, NJTA, NJDOT, MDOT, VDOT, and/or PENNDOT projects required.
- **Industry Credentials** – Professional certifications as a Professional Engineer required
- **Technical Expertise** – Strong skills in problem solving, critical thinking, engineering design studies and assessments, constructability reviews, developing technical reports and presentations, and project schedules and workplans
- **Travel** - Ability to travel periodically to various transportation agencies and project sites across the Mid-Atlantic and attend and share your expertise and client success stories at key industry conferences
- **Work Authorization:** Authorization to work in the United States.
